Dear Dr. Lin:

I am assuming you are back from vacation. I hope you had a nice time. Enclosed please find a first draft (WORD attachment + PDF attachment) of the Photo Quality Meter patent application which is based on your disclosure provided so far. Please review carefully the text and drawings and respond to any questions/comments/requests for disclosure directly in the text, preferably in red, so it is clearly distinguishable from the original text, or call me to discuss at your convenience. If you have any questions, please do not hesitate to call or e-mail. Thank you.

Best Regards,

Mike Mihaylov
